M^cCULLOUGH M E S S E N G E R

Representing Moody Aviation.

This summer we were privileged to go to Oshkosh, WI to the largest annual international airshow. It lasted a week, and we went to represent Moody and missionary aviation with ten other people from Moody Aviation. As a family we drove there pulling our camper. It was a great trip with no breakdowns. Praise the Lord! If you've followed our previous trips, we haven't traveled quite that easily in the past. While at Oshkosh we were able to be alongside several other mission organizations to tell the world, quite literally, about mission aviation. It was amazing how many did not even know that missionary aviation existed. We as a family were able to not only minister but educate those that came into our area. It was so much fun serving as a family and seeing our kids share about serving in missionary aviation. That is only possible through God's people – you – walking this road with us. Thank you!

Afterwards we took Sydney to see Moody Bible Institute in Chicago. While there the kids had their first deep dish pizza and saw many of the attractions of the city. Whew, it was a lot of walking with just a few blisters. It seems everyone knew we were there because campus security said our "Alaska truck" stuck out like a sore thumb. Or maybe it was the bikes strapped to the top of the bed of our truck. From Chicago we then made the return trip home to WA. Thank you so much for your prayers!

Students Working

The Kids.

Bryce has moved into an apartment with a friend from church while working full-time. He is learning all about life as an adult. Be praying that God will continue to move him where He wants Bryce to be. **Sydney** turned 18 this summer and is in her senior year, but not going to her high school for classes. She is at the community college getting a baking certificate in breads, pastries, and cakes while finishing her two remaining high school courses, English and History. Please pray for time management and stress that can come from pushing hard her senior year. You can also pray for Heather as she tries to help her! **Blake** had a great summer hunting down garage sales for those elusive Lego deals. He has spent hours organizing the blocks so that he can make awesome builds. This school year he is taking design and modeling as a class where he works with designing and building structures to precise specifications. He is really enjoying that class as well as learning to play the trumpet in band. The trumpet was yet another garage sale find of his.

Unity.

This is a prayer God has laid on my heart for the students this year. We have some talented students that can achieve a lot when they work well together, but they struggle at times. This is not uncommon on the mission field or in everyday life, and is something God has asked me to teach at Moody. It is a soft skill that this generation is really struggling with. They are taught their whole life it is all about them. But—God has called us to serve, not just Him, but those around us. I Peter 3:8-12 tells us to pursue unity. Not just to speak of it, or demand that it happen. It is something that we each must do. How? Through love and having one mind focused on Him. God shows it in the Trinity being three—different, yet the same. He called for it in the early church where disfunction should have ruled. I have had many discussions with the students and opportunities to show unity. Pray I, myself, and the students will continue to grow towards mastering this so they can lead groups in unity as they serve on the field. How wonderful, would it be for Christ to return and find us as he commanded in Philippians 1:27, standing firm in the one Spirit, striving together as one for the faith of the gospel!

Thank you for serving with us! Travis & Heather, Bryce, Sydney, and Blake
